Art Unit: 1626

1. Claims 1-6,8,12-22 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim1-21 of U.S. Patent No. 6114365. Although the conflicting claims are not identical, they are not patentably distinct from each other because of the reasons of record. Applicants' arguments have carefully been considered and found not to be cogent. Attention is drawn to ex, 59 of the instant specification. This species is encompassed by both the instant and patent claims, thus clearly meeting any two way test.
